M RUPESH

React Js Developer

📞 9581995887   @ mudavathrupesh123@gmail.com   🔗 linkedin.com/in/rupeshchawan
📍 Hyderabad

EXPERIENCE

Software Developer

Bhaskaracharya institute of space applications and geoinformatics

📅 04/2023 - Present   📍 Gandhinagar

- I have Developed a secure login system utilizing role-based authentication, OTP, and CAPTCHA, employing Spring Boot
Security for backend and React/Next.js for frontend.
Designed and implemented an intuitive dashboard to display user data with PostgreSQL database integration,
presenting data through pie charts for enhanced clarity.
Implemented form validation using React Hook Form and Yup, with UI design utilizing Chakra UI package for optimal user interaction.
- Utilized a partition methodology to structure lengthy recruitment forms into manageablesections,ensuring
seamless data storage and presentation to administrators.
Developed custom tables with pagination, CSV export functionality, and search bar filters for efficient data
management and reporting.

EDUCATION

HSC

Pratibha junior college

📅 2016 - 2018

Btech computer science and engineering

Central University of Haryana

📅 2018 - 2022

PROJECTS

Rentify

📅 2024 - 2024

Link : github.com/rupeshcode/rentify
I have developed a role based login where seller can add,edit,delete his property details and which can be visible to all users.

Ecommerce

📅 2024 - 2024

Link : github.com/rupeshcode/ecommerce
Made a web page where user can see the list of products added in the website and can add the particular product in wishlist and also added the functionality of add to Cart using redux state management

SUMMARY

I'm a Full Stack Developer skilled in React,Next js and Java. I love tackling complex problems and building user-friendly web applications. I'm always eager to learn new technologies and enjoy working collaboratively to create high-quality software.

KEY ACHIEVEMENTS

💎 **What are you most proud of?**
Designed a entire web page with proper and understandable Ui and managed to complete the crud operation task like delete,update ,add functionality and created a report format page with pagination functionality in it

SKILLS

Reactjs	Nextjs	Html	Css
Javascript	Java	Postgresql	
Chakraui	Mantineui	Bootstrap	
Yup/Zod validation	Scss		

CERTIFICATION

Frontend Web Development with React(Udemy)

Frontend Web UI Frameworks And Tools : Bootstrap 4(Udemy).

PASSIONS

💎 **Interested in coding**

STRENGTHS

💎 **Your Unique Talent**
- I'm a strong communicator.
- I'm highly motivated.
- I love working with new challenges.
- I have good organizational skills.
- I thrive in a fast-paced environment.
